Assessor Comments	An excellent line of PTIC heifers that are in predominantly forward store condition. Medium to large framed heifers with all there lives in front of them. These heifers were purchased in from Julia Creek late 2020 and have done extremely well. Genetics include, Granada, Fenech, Ticoba & Stewart Wallace Brahman. Heifers were weighed after a big dry curfew and were 100% empty at assessment. These heifers have an excellent temperament and are good to handle in and around the yards. All heifers are one mark and purchased A/c the breeder. Please note: There are 20 heifers 7-11 weeks in calf which are identified with green management tag. There are 18 heifers that are 12-16 weeks in calf identified with blue management tag.
