Assessor Comments	A line of Red Poll heifers with Red Poll calves at foot. An ideal opportunity to purchase young females in true store condition ready to respond rapidly on good nutrition. These heifers were purchased direct off Red Cactus & Koallah Park as vendor bred heifers. Calves 9 steers & 14 heifers. Three of these heifers had active pink eye 5 weeks ago, they were treated and patches were removed at assessment and scaring was evident but not detrimental. Please note - two of these heifers appear to have no milk and have weaned their calves naturally.
