Assessor Comments	46 cows and 46 calves that have been running back with Keringa and Bulloak Well blood Angus bulls since calving started. Purchased in from the local area via A+ in Spring 2020 as PTIC cows. Cows are predominantly 2017 and 2018 drop and the oldest a 2013 drop and are Medium/large frame cows. The calves at foot are fresh, there are four younger calves that would be 1-2 weeks old with the balance being 6-14 weeks to average 110 kg with 28 male calves and 18 females. Calves have been drenched, vaccinated and tagged, the bull calves are still entire. 36 of the calves are Angus and the balance 6 red and 4 greys. Good units to put away and grow out and calve down again.
