Assessor Comments	Excellent quality draft of 2 decks of AA Hfrs. Weight range was 336-486 to Ave 405kg after being yarded for 24hrs. 5 hfrs had white on the udder whilst 1 had white fwd of the udder and lower flank on one side and 1 had a white stripe through underbelly. Please note there are approximately 6 that have a cloudy eye from the stubbles and hay, treated with teramycin and look to be well healed. Sired by AA Bulls from Sterita Park and Stoney Point. These heifers were classed in and retained from the initial dispersal sale. Very well handled they have a great temperament and would be a great inclusion to any herd or those starting off. Please note the vendor has another deck of the lighter sisters in the same sale.
