Assessor Comments	Offering a quality 8 deck line of 710 Merino Ewes. These ewes averaged 52.4kg live at assessment and are in very good order. They are all vendor bred and are 2019 drop green tags . The ewes were shorn in November and are carrying a generous skin with 50-70mm wool. The ewes would benefit from being crutched soon as there are some sheep that are getting covered around the head. These ewes were scanned undetectable on the 26/05/21. Don't miss this opportunity to purchase a large line of quality vendor bred young ewes that have plenty of years left and a generous jacket for a quick return. Please note two ewes sighted with light horn in the mob. Also please note there are another 4 decks of ewes from the same vendor in the sale.
