Assessor Comments	Very good line of 2019 (15%) and 2020 (85%) drop ewes SIL to Etiwanda and Annalara White dorper rams to commence lambing the first week of July for 8 Weeks. Of ewes scanned there were 167 Singles and 77 multiples. Ewes consist of approximately 29% Dorper and 71% White Dorper. Ewes are only being sold due to falling out of the vendors regular joining, they are young ewes that had a big lamb on them and ewe lamb that weren't heavy enough at the vendors usual joining. Please note one ewe noted with caramel marking on her head.
