Assessor Comments	296 Scanned in lamb Merino Ewes. Some of the heaviest, longest Merino Ewes I have had the pleasure of putting through my weigh crate. Range of 66- 95kg to AVERAGE 77.9KG !! After a 22 hour lockup. These ewes are magnificent examples of the Mumblebone blood sheep that everyone is chasing to emulate. Scanned in lamb to top quality Kurraview White Suffolk Rams, these ewes were joined over a short 36 day window to lamb early August. Excellent blocky mouths on these ewes, as seen in photos. Excellent quality, Highly recommended.
