	C (61-65cm)	85%			Light	80%		
	D (56-60cm)	5%						
Assessor Comments	A good quality line of Cassilis Park, and Merryshields blood ewes, freshly shorn, and scanned in lamb to the Poll Dorset rams. These fit, healthy ewes have had all the work done for you, and are primed and ready, given the right opportunity, to be taken forward to produce a Poll Dorset cross lamb with plenty of potential. Buyers please note, the ewes have been treated with Powershield since the assessment and therefore it does not show in the photos. Also, please note the dentition of the ewes is consistent with age. Please reference dentition section of assessment, and photos. 4 ewes with horns and scurs were noted during assessment, as were 2 ewes with old fly strike. 1 ewe with a partially distended udder was also noted. Please reference photos.
