Assessor Comments	A productive line of merino ewes 1.5 - 4.5 year old, Mumblebone blood, off shears and scanned in lamb to Mumblebone merino rams. 86% of the ewes are either 1.5 or 2.5 year olds with all ewes classed in. White and black tag ewes are mulsed. Ewes with 2 dots on rump are twin scanned in lamb and scanner had ewes 35-45 days in lamb at scanning so they will lamb over a tight 10 day period. A great opportunity to purchase pure mumblebone blood ewes in lamb to mumblebone rams to retain ewe portion of the lambs. Ewes would improve quickly on good feed after just being shorn. Vendor will offer scanned empty ewes in the same sale.
