Assessor Comments	Complete flock dispersal of West Plains P'ship due to the Property been sold.The Hammond Family's Flock has been based on pure Uardry/Calga Blood Dohnes & Cooroonboon Poll Merino Rams being introduced to improve wool quality in 2019. The West Plains flock's goal have been to Breed Hardier sheep that are Large framed yet Easy doing sheep with plain bodies, soft wool and high Fertility with the flock currently in a double joining programme in the Spring & Autumn periods. The flock has no vet treatments to report other than a Backline at shearing time on 21/07/20. ***** An impressive line of Fertile large framed 4 & 5 year old ewes (150 white & 135 black) are proven breeders with the same age group of ewes & lambs having 120% lambs at foot.These ewes are in very good joining condition and with a big skin come highly recommended for the serious breeder wanting to retain breeders with impressive genetics * buyers note - very small% of ewes with a long toe or dropped bag.
