Assessor Comments	130 Apr/May & Sept/Oct 2020 White Dorper ewe lambs & Hoggets, Eureka bred, Amarula blood, 49.1kgs live weight (30-68 kgs). Ewes are station mated and 66% SIL to Dorper rams. These ewes are a combination of 2 drops and are only being sold as the vendor wants to focus breeding direction towards traditional Dorpers. Ewes are in excellent condition for age and will continue to grow and mature into prolific breeders for the future. Ewes are predominantly good shedders. Ewes were joined for 9 weeks with rams only being removed from the mob today so there is a high chance more ewes are in the early stages of pregnancy but not yet detectable. An ideal small line of well-bred ewes.
