Assessor Comments	A nice line of 220 Glen Donald blood Merino ewes with 250 marked White Suffolk X lambs at foot, the ewes are doing a good job on their lambs considering the current season and still have plenty of milk. These ewes are good medium framed sheep that would do very well shown the right feed and still have a chance to turn their lambs into early suckers. Of 20 ewes mouthed they look to be solid in the mouth but are starting to lose the odd wing tooth. Please note there are two ewes with a break in the skin and I noticed one ewe with a bad udder on one side but was still feed her lamb on the other side.
