Assessor Comments	Mixed age merino ewes, 3 - 5 years, January shorn, Collinsville blood. Good framed, heavy cutting medium wool sheep in good store to fat condition. The ewes have been depastured to White Suffolk and Poll Dorset rams from 26/2/21 to 6/4/21, SIL 100% with 14 singles and 92 multiples detected. Formerly these ewes were from the Bromley Park flock and were taken over by PRS Farming as part of a partnership split. With many years of breeding using Collinsville blood genetics and being extensively classed over that time this represents an excellent opportunity to obtain some very good quality ewes. Productive ewes that are scanned in lamb at a massive 186% to take advantage of this very good lamb market. Only being sold to make room for an expansion in cropping program. Note: 265 maiden ewes, SIL, from this vendor also in this sale.
