Assessor Comments	A well bred line of 1st calve Angus heifers Booroomooka Angus blood with Millah Murrah Angus calves at foot and rededepastured back to the same bull. Heifers are 26-28 months of age and are milking up well for their first calf with calves between 1-8 weeks of age. All calves were vaccinated with 5in1 at assessment and all bull calves were marked also. 1 calf will be 8 days old at delivery and care will be given when trucking. Also 1 calf has a white stripe under his belly. 4 heifers noted with blue scaring on eye. Bull will be taken out at delivery. A great opportunity to purchase an even, well bred line of young future breeders that that would respond well to continuing good feed. These heifers are very quiet to handle.
