Assessor Comments	A nice line of Angus heifers providing well for their young calves. Heifers present in a store condition and have the ability, if given the chance to grow out into nice cows for the future. Calves are 2- 7 weeks of age and average 97kg and growing nicely, Heifers calved with ease and unassisted as they were joined to LBW Angus sires. with all the hard work of calving down future breeders already done, this line of heifers and calves offer a excellent opportunity for the incoming purchaser to put together a good run of heifers not rejoined. Will be offered in lots 10x10 over the entire 100x100 and delivered as a run out the gate delivery in lots. Heifers and calves were weighed with the average taken of both heifers and calves along with top and bottom weight. Unites are very even although delivery may vary slightly on lots. Please note in total. 3 heifers had old blue eye scaring not deemed detrimental as breeder. 7 heifers with white on udder. 1 calf presented with a pink eye.
