	Cattle always handled in a calm manner using Low stress practises. Easily brought up to the force & race by a single handler. All females led up the race and stepped on the scales without issue and exited at a walk.			
Handled With	Bikes , Dogs , Low Stress Stock Handling© practices (January 2014) , On foot , Vehicles			
Assessor Comments	Healthy females that are proven breeders and have produced a good calf every year, just slipping out of the program this year after scanning up in the 3rd cycle of pregnancy and the vendor wanting to maintain a early/tight joining period. Nice line of breeders with plenty of weight attached that carry years of Dunoon Angus genetics. Big, long square bodied females that have calved unassisted every year, and still have years of productivity left in them. Please see photo's & video's for full contentment.
