Assessor Comments	Healthy young females that were retained to be the future breeders, just slipping out of the program after scanning up in the 3rd cycle of pregnancy and the vendor wanting to maintain a early/tight joining period. Very nice line of breeders that carry years of Dunoon Angus genetics, with a recent introduction of the Ardrossan genetics. These are soft quiet females that will make excellent mothers in the very near future. Please see photo's & video's for full contentment.
