	Good quiet cattle to handle. These were the last mob to assess, cows were starting to get slightly stale from being in the yards for several hours. Easy cattle to draft & assess.					
Handled With	Bikes , Dogs , On foot , Vehicles					
Assessor Comments	The mature cows from the Queltara dispersal, these matrons have proven themselves year in year out and were all mouthed fully sound at assessment. They are 7 years (red tags x 8) & 8 years (yellow tags x5) old, with plenty of life left in them. The steer progeny from this herd have been sort after feeders for top end angus feedlot markets where their weight gain and IMF have been recognized, and they have also been finished on farm for the supermarket trade. Big powerful cows that will rear a great calf again, 2 cows in this line with some shorthorn infusion. Tight 6 week joining to high IMF Rossrich Angus Bulls.
