Handled With	Excellent quiet cattle to handle. A pleasure to draft & assess. Bikes , Dogs , On foot , Vehicles		
Assessor Comments	The 3rd calving white tag line of cows from the Queltara herd are a very impressive group. They are big long and powerful females entering the prime of their breeding lives. The steer progeny from this herd have been sort after feeders for top end angus feedlot markets where their weight gain and IMF have been recognized, and they have also been finished on farm for the supermarket trade. These cows will be an asset to any quality herd with a great opportunity to access females from the heart of this very fertile, high performing operation. Joined for 6 weeks to Rossrich Angus Bulls. 2 of these cows have Green replacement management tags, but are part of this 2017 drop of cows. Great quiet cows to work with and a pleasure to assess. **Assessors Highest Recommendation**
