	Excellent quiet cattle to handle. A pleasure to draft & assess.					
Handled With	Bikes , Dogs , On foot , Vehicles					
Assessor Comments	An impressive line of dispersal conditions 2nd calving females. The Queltara herd are noted for their softness, and performance joined for 6 weeks. The steer progeny from this herd have been sort after feeders for top end angus feedlot markets where their weight gain and IMF have been recognized, and they have also been finished on farm for the supermarket trade. These females are very well grown, showing lots of length and frame. The temperament of these 2nd calvers was excellent. A line of classy young females that are hard to fault. Potential buyers please note 1 cow with mild pink eye scarring in one eye (see picture) **Assessors highest recomendation**					
Assessor	Tim Robinson (Level 1 Accredited) Parallel Assessed By : James Scott
