Assessor Comments	9 Purebred Registered stud Wagyu cows, Preg tested in Calf to the fullblood Wagyu bull GWWFG1104, with fullblood mop up bulls PDWFNP31 & PDWFNP26. They were purchased from Wagyu breeders as heifers and have since grown out to make exceptional mothers, only selling as they are surplus to the vendors needs. They girls are composite bred from both reds and blacks. When handling these cattle, it was obvious that they have had plenty of handling as they were great to handle around the yards. They are well grown cows and present in fantastic condition, a credit to the vendor. Will suit someone looking to enter the Wagyu market or someone wanting top up existing numbers. For any queries don't hesitate to give the agent a call.
