	Quiet: 17 head	Quiet: 16 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Cows were very good to handle. No cow showed any run, having been well handled in good set of yards throughout their lives.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A nicely presented draft of vendor bred, PTIC Poll Hereford cows, joined to Coolana Angus bulls to calve early August for about 7 weeks. Genuine sale of breeding herd due to change in operation, with cows ranging from rising 3yo to rising 7yo (12 head 3-5yrs, refer age break up). Presenting in forward store to prime condition, cows are generally deep bodied, heavy boned and it must be noted that the two lighter weighted cows are the younger cows (rising 3yo) and would be expected to mature into similar types. One cow has tipped horns, and vendor is willing to remove at purchaser's discretions. The Woodlawn operation has principally used Allendale sires over a number years. An opportunity to acquire predominantly young PTIC Poll Hereford breeders, set to calve over a tight 7 week period (NOTE: vendor offers a further 9 non-vendor bred PTIC Angus cows this sale).
