| Assessor Comments      | These are the top draft of the annual sale wether lambs from 'Tuppall Creek'. They show good growth and condition considering the season at hand. They have been held in small paddocks and fed cereal hay with a dry lick to help. These wethers would grow on and cut a magnificent fleece as a 2yr olds, or fatten for the trade market. About 10-15% of the mob are showing slightly more horn than usual, and any stags and long horn wethers were removed. See 218 wethers (2nd draft) are also in the sale. |            |                   |
