Assessor Comments	Annual sale of the 'Batanda' wether lambs. Bred out of Medium/Large frame ewes by leading 'Nareeb Nareeb' and 'Firgrove' Merino rams. Wethers have been grazing on improved pastures supplemented with wheat and present in strong store condition. Off shears five weeks. Coming from a flock average of 18 micron where the breeding objective is to produce heavy cutting, easy doing sheep with a clean, open face & bare breach. They would make ideal future wool growers or grow into outstanding heavy export wethers! They come with the agents highest recommendation!!!
