Temperament

Yards	Crush	Paddock
Quiet: 27 head	Quiet: 27 head	Quiet: 51 head
Slightly Stirry: 24 head	Slightly Stirry: 24 head	

These cattle where easily handled, I would have liked to have made them all quiet in assessment but they having not being handled in the yards that often, they did come unsettled but definitely no steers became aggressive.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , Vehicles
Assessor Comments	The Steers handled well, They have been born into good conditions, We treated at least 1 steers for eye problems (Pinkeye) and if not totally recovered (healed) we will reject at delivery. I marked in temperament that a number were slightly slurry, in my opinion with handling they will be quiet cattle. The weaners were mustered over a 6 week period and at the end of muster were yard fed with Lucerne hay. The curfew is stated at 6 hours 170 of the weaners were assessed on arrival to the yards from holding paddock the balance 210 were weighed the next morning being over 12 hours hence the 6 hour curfew. Recommend. There is another 3 lots of Moombidary steers in this sale.
