Heifers were able to be handled throughout the assessment procedure. When isolated, heifers became unsettled and uneasy. Once returned to the main group, heifers became quieter and settled. Sound knowledge of stock movement would

	be ideal to continue to settle these heifers as they mature and grow out into ideal breeders or feeders.
Handled With	Bikes , On foot , Vehicles
Assessor Comments	Presented is a neat, tidy line of 12 vendor bred, weaned, Angus heifers. Sired by the Mundoo Bull, these heifer calves show great shape and structure. These heifers will make ideal breeders once they have matured. Averaging 303Kg Full at assessment, these heifers have continued to move forward after being weaned in May. Heifers have been vaccinated with 5 in 1 and with a 5 in1 booster shot. Annual sale of vendors female weaned calves. A great opportunity to source vendor bred Angus heifers to grow out into feeder or join-able weights.
