The heifers were unsettled in the yard at first, after a minute or so the settled down and would stop and block up well. A hand full moved around when put under a bit of pressure. In the weigh box some heifers moved back and forth and exited a bit faster than the rest. 1 heifer did exit fast.

| Assessor Comments | A great opportunity to purchase a run of heifers with some breeding behind them. These heifers would suit to either breed out of them, or run on to heavy kill cattle. These heifers are out of Rennylea / Dunoon blood cows and are by Dunoon and Ardrossan bulls. These heifers have been vaccinated with piliguard. 4 heifers had a little white on the udder. One heifer had a very old pinkeye scar. The heifers are Greenham Never Ever grass fed accredited. |
