An absolute pleasure to work with these calves. All walked through race and stood on scales quietly. When let out of yards they walked back to their paddock without getting into a trot. Properly educated weaners that are a credit to the vendor. Have been worked with and have respect for dogs and know their way through a set of cattle yards.

Assessor Comments	A rare opportunity to purchase a line of Weaner Steers direct off the Harbison Family at Dunoon Angus. Properly bred Angus Steers that will grow out into high grade feeder steers or ideally will make top grade bullocks. Dunoon cattle are well renowned for carcase & growth attributes and these steers carry all those genetic benefits from years of breeding. Steers were all marked with rings at weaning at the end of March, this late marking shows some a little tender around the purse area. There were 10 steers noted at assessment that had old pink eye scarring but sight was not affected and 8 steers had a very small area of white underneath but none forward of the navel. Please see last few photos in regards to the worst of the eyes. Vendor can provide a PCAS Non-Certified Supplier Declaration upon request. Well handled & educated calves that are ready to bound ahead.
