Extremely quiet young cattle to handle throughout assessment. Brought up from the back yards by a single lady handler without any hassle. All calmly loaded in to the race, entered & exited the crush at a walk, just a few doing a bit of stomping, listed above as slightly stirry. Cattle that could be easily handled by a stockman of any experience. These calves were a pleasure to handle and a real credit to the vendor.

Assessor Comments	Fresh healthy young steers that have been weaned up for 3 weeks and are on the do. Tops of their drop with a small tail removed at assessment. Carrying Jarobee Angus blood from a self replacing herd of large framed matrons. These are long, deep, structurally correct steers with plenty of weight carrying capacity. These cattle have been purchased on repeat occasions by inhouse clients and have proven to perform in both feeder & export weight brackets. Buyers please note. 1 steer presented with a white eye blemish. It is at the buyers discretion to leave this steer out, see photos.
