Assessor Comments: Nice line of 25 Friesian Steers that are in very good condition having enjoyed a good start to life being still receiving milk as well as grain, hay and irrigated pastures. They are bred out of good framed Friesian herd from neighboring property. They

	were very good and quiet to handle in yards and paddock. There are 3 Steers with black legs in mob but are same frame and quality as their brothers. Note not weaned but can be before delivery.*Please note very odd slight pinkeye scarring and odd ringworm but not detrimental. The steers present well and in very forward condition doing over 1kg/day
