| Quiet: 42 head | Quiet: 40 head<br>Slightly Stirry: 2 head | Temperament not assessed in Paddock |

Very easy cattle to handle. All worked through the yards well and stood quietly on the scales. Not hesitation to recommend the temperament. Steers are not threatened or phased by walking amongst them in the yards. Broken in to dogs

**Handled With** Bikes , Dogs , Vehicles

**Assessor Comments** 42 Upper Murray Bred Steer Weaners. These calves display a great temperament and present in genuine store condition with frame. There were 6 steers noted at assessment with old pinkeye scarring but all have full sight in both eyes, please see photos for the worst. There was also a small amount of ringworm but it appears to be clearing up. Principally Angus Steers with 3 Black Baldies and a very small percentage showing white bellies and a touch of black simmental from a few generations back. Quiet, easy to handle, properly weaned steers that come from a strong cow herd and will perform for the successful purchaser. Vaccinated at weaning with Bovilis MH + IBR and up to date with all animal health vaccinations & drenches all you have to do is show them the grass.
