Temperament

Yards	Crush	Paddock
Quiet: 18 head	Quiet: 14 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

	Very easy to handle & draft in the yard - All generally with sound quiet temperament at assessment - It was noted that 4 steers did become slightly stirry/nervous/agitated when stepping onto the scales in the crush during weighing but settled down immediately when let back in the yard with the mob - Not detrimental in any way
Handled With	Bikes , On foot , Vehicles
Assessor Comments	18 Angus X (black) weaned/yearling steers, All vendor bred - Rising approximately 10-14 months - Presenting in strong store condition with sound medium to large frame - Majority with good shape & will fill out further as they mature & grow - All yard weaned 16/3/21, these steers have been well handled & displayed a sound quiet temperament in the yard at assessment. GA, Grass Fed/No Antibiotics - These steers are suitable to continue to grow out to target a grass or grain fed fattening domestic/export steer or bullock market - Alternatively they may suit to grow out & background to heavier weights for a select feeder market - These steers will do up well in a relatively short time period given good feed once through the winter months coming into the spring, past drafts have performed well with weight gain & growth - Purchase with confidence, a very neat pen of black Angus X weaned/yearling steers
