Assessor Comments	Here is a neat B Double load of quality 100 Alpine Blood Angus Steers that are well weaned in forward store condition. Bred in the high country, breeder has been using alpine blood for many years and it shows in the quality of these steers. They have had limited paddock feed but fed adlib hay and sileage since weaning which has helped make them quiet. They present well in strong store condition and have all had their health treatments. Most were good to handle and quiet. Please note 4 had fresh weeping eye from grass seeds, seeds were removed and eyes treated. Great opportunity buy big line of one mark, well bred steers.
