	Calves were eager to move away from you in the yards. They pushed through the race a couple didn't like being in the crush. Overall not hard to handle, typical traits of freshly weaned calves.

Assessor Comments	A nice line of vendor bred Angus/Shorthorn cross steers. These steers are well bred and by the well known Rennylea Angus stud bull. Rennylea P290. Sire was selected on his higher growth rates for 200 and 400 day weights. Steers calves that have been weaned 2 weeks, are fresh in condition and are ready to power ahead given the good start they have had to life, given the right opportunity next place they go.
