A pleasure to handle from yarding to drafting. I was very impressed with the way these cattle handled with only 5 becoming slightly agitated while standing on the scale

| Assessor Comments | An exceptional line of Vendor Bred, Grass Fed, Anti Biotic Free Angus steers, that are ideal for the feeder market or to grow out to bullocks. This line of steers present in store condition and show very good bone and structure. Shown the right treatment these cattle are ready to jump ahead, currently averaging 0.7kg a day since they were last weighed on grass. With temperament being a major part of the breeding program and a reputation of very well doing cattle I believe any perspective purchaser will be very happy with these steers. Pleas note a bottom draft was taken out and retained and some daggy tails were noticed, not detrimental (see video) |
