Temperament

Yards	Crush	Paddock
Quiet: 514 head Slightly Stirry: 20 head Stirry: 4 head	Quiet: 506 head Slightly Stirry: 26 head Stirry: 6 head	Temperament not assessed in Paddock

Steers move quickly through the race and crush but settle quickly when back in the mop. Handle well in the paddock and walk well for long distance to get to the yards. The temperament of these steers is true to type for their breed,age and condition.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles

Assessor Comments SUPERIOR GENETICS FROM LANCEFIELD AND APIS CREEK BULLS,PROVEN PERFORMERS, QUIET AND WELL GROWN. This line of steers have been drafted on weight, type and quality, are the lights from a draft for boat steers and are of the high Dyer family standards. These steers come from a long history of improving genetics in the breeding on Hayfield station and are a perfect line of steers to take advantage of a paddock with excess feed. They will be a line of good performing steers which can be grown into the export protocol standards and slotted right into an export job. They are well grown in forward store condition and are a very attractive line. Buyers please note these cattle do walk a long distance to get to the yards and had a long curfew before weighing, also cattle were assessed nearly 30 days ago and it is our opinion that the cattle would of but all their mustering weight and a bit back on. These steers are to be sold cpkg and we believe these weight should be used as a guide.

Assessor **Clint Endersby (Level 2 Accredited)**

Parallel Assessed By : Greg Liebelt
