Heifers move quickly through the race and crush but settle quickly when back in the mop. Handle well in the paddock and walk well for long distance to get to the yards. The temperament is true to type of this breed for their age and condition.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles

Assessor Comments SUPERIOR GENETICS AND A TRULY STRIKING LINE OF HEIFERS,VERY STYLISH, QUIET AND WELL GROWN This line of heifers have been drafted on weight type and quality, are purely surplus to requirements and are of the high Dyer family standards. These heifers come from a long history of improving genetics in the breeding on Hayfield station and would suit a multitude of options. They would make magnificent breeding heifers or could quiet easily be turned out grown on and slotted right into an export job, either way these heifers will perform well for you. They are well grown in forward store condition and are a very attractive line of animals. Buyers please note these cattle do walk a long distance to get to the yards and had a long curfew before weighing, also cattle were assessed nearly 30 days ago and it is our opinion that the cattle would of but all their mustering weight and a bit back on. These heifers are to be sold cpkg and we believe these weight should be used as a guide.
