Cows worked well through yards , despite moving away from pressure quickly no cows showed aggression. some cows became agitated in race and crush but settled once returned to mob and will cause no problems when handled with good stockmen

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot
Assessor Comments	Buyers 4 decks of Cows and calves best described as predominately good quality young to middle aged Charbray ,Brahman and Brahman cross with 15% older Cows in mob. These Cows were purchased ex St George in January as Ptic Cows , they are doing a great job on their calves in only a mediocre season with a large % being second calvers (no 7) and will power ahead on good feed . Cows have been rejoined to Rangelands Angus Composite Bulls since calving and Bulls are still running with cows until delivery. They would be ideal to breed on from and have proven they can handle the harsher Mulga conditions.
