| Assessor Comments  | On offer is a good line of cows and calves and out of these cows 12 have been preg tested back in calf to a simmental bull, these cows range from 4-7 years old and have many years left of breeding left in them, these cows were purchased out of a tick area and been retained in the breeding herd till now, the calves at foot have all been marked and are by Brahman and Angus bulls, these cows have had access to organic back rubbers in the paddock. These cows and calves would be a good asset to a breeding herd or would suit to be turned over. |                                           |                                     |
