Assessor Comments	12 very good quality Charolais cross heifers that have been PTIC to the Angus bull for a suggested calving to commence	

late October. Heifers are showing great depth and bone and should continue to grow into large framed cows. Heifers were very quiet to handle in their own environment. These heifers would be a very good asset to any herd or for the smaller holdings looking for quality females to rebuild or start out. Vendor has two lots in today's sale.
