Assessor Comments	A young line of 1st calve Hereford and crossbred heifers with Kidman Angus calves at foot and redpastured back to Millah Murrah blood Angus bull. Heifers are 28-32 months of age and are milking up well for their first calf and doing a good job on vealer calves between 2-4 months of age at foot. All calves were vaccinated with 5in1 at assessment and all bull calves were marked also. There is 3 straight angus calves the balance black baldys. 1 cow noted with blue scaring on eye. Bull will be taken out at delivery. A great opportunity to purchase good line of future breeders with big calves at foot that would respond well to continuing good feed.
