	Relatively easy to handle females. A bit of stubbornness exhibited in the yards from years of handling/preg testing and A.I.ing. Very quiet to deal with - some would just rather bury their head in the corner before walking up the race. Once in the race all led up very easily and stood on the scales with their head in bale to be mouthed without hassle and all exited at a walk. Quiet and easy, just typical mature age cows that know the drill and try to out wit it a bit where they can.					
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	An opportunity to purchased a small line of the Ex Stud & Commercial Argyle Cows (6 Ex stud, 3 Commercial). These females come from the 4th oldest genetic line of Angus in Australia. Cows that carry a long rich history of EBV betterment and continue to produce outstanding results, including receiving the award for Overall Excellence in Marbling for certified Australian Beef from 50,000 entrants. Predominantly very large framed, with a huge amount of length & depth. Cows with productivity going in every direction & filled out almost the entire crush. Big cows, that put big calves on the ground and will have you weeks ahead in productivity from the get go. Perfect for someone wanting a small lot of front paddock quality matrons. Please see photos & video for full contentment.
