| | |
|---|---|
| | 44 Head (100%) PTIC, from 6 to 7 months (at time of assessment). Certificate Available. |
| Other Joining Details | To commence calving from late July onwards. |

Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 39 head<br>Slightly Stirry: 5 head | Quiet: 36 head<br>Slightly Stirry: 8 head | Temperament not assessed in Paddock |

All females were very good to handle throughout assessment. Brought up from the back yards by a single handler. Just a couple wanting to push through in the race. All exited the crush sensibly and relaxed once back in the mob. Most Cows were a little bit concerned and flighty in the paddock with a person on foot, but much more conformable to walk up to the bike without concern.

|---|---|
| Handled With | Bikes , Dogs , On foot , Vehicles |
| Assessor Comments | Rare opportunity to secure a line of top breeders, regrettably, only being squeezed out of the system due to moving in to an all black herd. These are highly productive, moderate mature weighted & extremely fertile, getting a 100% positive scan at preg testing. Classed annually and heavily culled for bad feet, udders & temperament. Long, deep bodied females that are extremely milky & put everything in to their calves and have remained in the herd by producing a good weaner every year. Calves have been weaned off for 4 months and cows have all tightened up in their bag and have gained a bit of cover ready for this years calving. This a genuine sale of vendor bred breeders with years of production still to give. Note. 2 very minor eye blemishes noted. 1 slightly long toe. Please see photos & videos for full contentment. |
| Assessor | **Katie Lewis (Level 2 Accredited)**<br>Parallel Assessed By : Tim Hayes & Jackson Meehan |
| Delivery Period | 13/06/2021 to 18/06/2021 (6 days) |
