Temperament	

Yards	Crush	Paddock
Quiet: 7 head Slightly Stirry: 1 head	Quiet: 6 head Slightly Stirry: 2 head	Temperament not assessed in Paddock

All females were very good to handle throughout assessment. Brought up from the back yards by a single handler. Just a couple wanting to push through in the race. All exited the crush sensibly and relaxed once back in the mob. Most Cows were a little bit concerned and flighty in the paddock with a person on foot, but much more conformable to walk up to the bike without concern.

Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	Rare opportunity to secure a line of top breeders, regrettably, only being squeezed out of the system due to moving in to an all black herd. These are the younger females out of the draft. All mouthed as 4 & 6 teeth. Highly productive, moderate mature weighted & extremely fertile, getting a 100% positive scan at preg testing. Classed annually and heavily culled for bad feet, udders & temperament. Long, deep bodied females that are extremely milky & put everything in to their calves and have remained in the herd by producing a good weaner every year. Calves have been weaned off for 4 months and cows have all tightened up in their bag and have gained a bit of cover ready for this years calving. This a genuine sale of vendor bred breeders in the prime of their life. Please see photos & videos for full contentment.
