Assessor Comments	Offering the first draft of vendor bred heifers PTIC to Millah Murrah Paratrooper P15 & Murdeduke Kicking K428, these heifers were joined using fixed time AI on 23/10/2020. These heifers really do speak for themselves, they are large framed heifers being sired by high growth indexing Coolana and Wattletop Angus bulls and out of great herd of cows. They were pregnancy tested on 1/6 and also received pre-calving vaccinations and drench at the same time. These heifers have been supplemented a grass pellet for the last four weeks to maintain a good weight as they head towards calving. These heifers

would fit into any high performing herd as replacement breeders, they do not disappoint in any way. A very hard article to find, vendor bred heifers in calf to industry leading AI sires to calve early August.
