Assessor Comments A nice line of vendor bred heifers PTIC to Black Onyx 5Q11, these heifers were joined using fixed time AI on 30/09/2020. These heifers are medium to large framed, they are sired by high growth indexing Coolana and Wattletop Angus bulls and out of great herd of cows. They were pregnancy tested on 1/6 and also received pre-calving vaccinations and drench at the same time. These heifers have been supplemented a grass pellet for the last four weeks to maintain a good weight as they

	head towards calving. These heifers would fit into any high performing herd as replacement breeders. A very hard article to find, vendor bred heifers in calf to industry leading AI sire Black Onyx 5Q11
