Assessor Comments	A quality line of vendor bred heifers PTIC to Hazeldean P1359, these heifers were joined naturally from 2/11/20-23/11/20. These heifers are medium to large framed, they are sired by high growth indexing Coolana and Wattletop Angus bulls and out of great herd of cows. They were pregnancy tested on 1/6 and also received pre-calving vaccinations and drench at the

same time. These heifers have been supplemented a grass pellet for the last four weeks to maintain a good weight as they head towards calving. These heifers would fit into any high performing herd as replacement breeders, and being tightly joined they provide the purchaser with plenty of options going forward.
