Assessor Comments	A tremendous run on vendor bred heifers, these heifers were joined to AI sires Black Onyx 5Q11, Millah Murrah Paratrooper P15 & Murdeduke Kicking K428 on the 7/10/20 and were backed up to Riga Qumodo Q32 from 7/10/20-17/11/20 (6 weeks). These heifers are medium to large framed, they are sired by high growth indexing Coolana and Wattletop Angus bulls and out of great herd of cows. They were pregnancy tested on 1/6 and also received pre-calving

vaccinations and a drench at the same time. These heifers have been supplemented a grass pellet for the last four weeks to maintain a good weight as they head towards calving. These heifers would fit into any high performing herd as replacement breeders, and being either joined to AI to calve Mid July or tightly joined over 6 weeks they provide the purchaser with plenty of options going forward.
