Assessor Comments: Watervalley bred 20 Seconds Black cross cows 3-8 years PTIC 5-8 months to Watervalley black bulls. The cows are smaller, lighter frames and condition, the blacks have some various white markings, horns and an odd one has some Bos Indicus influence. This second draft being in store condition, with some good feed they will be ideal to calve down over the next few months. The Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for great doing mums and to add value to their purchases.
