Assessor Comments	22 good quality ,mainly Poll Hereford cows and calves. Vendor has been buying Mountain Valley sires for many years and has introduced Booyong bulls as well for the last few years. These cows are mainly 4,5 & 6 year olds with 2 cows x 8 years,(photos of their mouths) also 3 younger cows. The majority of these cows have not grown out to their full potential after growing up or calving during the drought but their genetics are right and they are very good functional cows with very good calves at foot and are extremely quiet. The bulls have been left in with the cows continuously so calving is somewhat spread out. The cows have been PTIC except for 5 cows with the younger calves
